DO YOU DO ANY BUSINESS IN IOWA: Gossipers in Wheat Believe Conditions Are Exaggerated.

ADVANCE IS MADE TOO RAPIDLY

Cash Onts Continue in Good Request -Many Look for a Good Trader Market and Favor Selling

Long Oats for Profit.

OMAHA, Dec. 19, 1912.
Geosalp on wheat last night was a little mixed. Those who sold out their holdings at a profit on the closing bulges said they did so because prices have been on the upgrade for three days and it is time for a reaction. They thought the advance a little too rapid and that a little setback was due. On a good break they intimated that they would buy the wheat back. Some of the best traders said that the markets insually harden around the nolidays, and it is not expected that this year will be an exception. After the lirst of January. OMAHA, Dec. 19, 1912.

not expected that this year will be an exception. After the first of January however, they expect that bearish influences may prevail, as they frequently do. They believe that the 90-cent level is low enough for the May option. There are many hig traders in Chicago as well as in the smaller markets of the country who fall to recognize the situation in the breadstuffs as being favorable to the bull side of the market at present. With that fact, considering there were 1,325,000 bushels received at primary markets yesterday and which is considerably more than double the receipts of a year ago, one will think twice before taking on a line of wheat with the idea of holding it for a profit.

line of wheat with the idea of holding it for a profit.

In addition to this the Minneapolis stocks have increased 1.100,000 bushels for four days, and the receipts at Minneapolis and Duluth yesterday were 900 cars, which was more than double the receipts of a year ago. The mills of Minneapolis as well as Chicago continue to run on full capacity, notwithstanding the fact that this is the week before Christmas, when mills are usually closed down. More or less capital is being made out of this steady grinding of wheat and those who less capital is being made out of this steady grinding of wheat and those who are taiking of a big flour output fail to mention the fact that their flour was soid several months ago, and at a time when a buil furore was on in wheat and that every pound of it shows a loss to the buyers.

Wheat Corn Oats Unmistakable Improvement Shown Minneapolis Kansas City St. Louis

Winnipeg CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade. CHICAGO, Dec. 19.—The grain markets today falled to maintain yesterday's gains, wheat closing \$625c, corn a shade to \$c and oats a shade to 550g down. Provi-

sions firm.
Disappointing cables depressed opening Disappointing cables depressed opening prices, but at the concession, however, shorts covered under the influence of reported briskness in the demand for spot. The reaction which followed brought out some long wheat, and final figures were close to the day's lowest quotations. May ranged between 1914, and 305,479%,c. closing 5424,c under yesterday at 305,4790 c. At the decline the tone was fairly steady. The corn market managed to save some

liquidation of long December options by a leading packer, the tone of that delivery being easy. The general tone, however, was firm in sympathy with higher hogs and a run of porkers at primary points, as compared with a year ago, May pork closed 75c up at \$18.075, May lard 5c higher at \$9.90 and May ribs 75c improved at \$9.705, Futures ranged as follows:

Total 2,172 5,373 5,417 80 CATTLE—Cattle receipts as usual on a Thursday were moderate, only 1,500 head being reported in. The supply, however, was large enough to meet the demand, which, though fair, was not especially urgent. The receipts for the week foot up only 15,500 head, being a falling off of about 8,000 head, as compared with a year ago. The light receipts today and yesterday are due apparently to the break C. ago. The light receipts loung to the break torday are due apparently to the break torday are full but it should be berne in

mind by shippers that the break in cat-tic this week was largely at Chicago, where prices declined anywhere from 50c to \$1.00, as compared with last week. The few beef steers in sight this morn-ing sold in about the same notches as yesterday, there being little or no change to the merket. in the market.

Cows and helfers moved a little more freely than yesterday and the feeling may have been a little better. Still the market did not show much change, being possibly strong, as compared with yesterday.

Stock cattle and feeders were in limited

On the whole the general trade today might be described as strong and active, with most of the stuff moving to the scales in very good season.

Only 3:300 head were reported in, which makes a moderate supply for a Thursday. The receipts fell short of last Thursday by 2:500 head, two weeks ago by 4:500 head, but were little if any different from one year ago. Quality in general was an improvement over vesterday, there being several loads of right prime lambs and good ewes and wethers offered. Very little if any range stuff showed up, and aside from a few loads of native lambs and sheep the supply consisted entirely of fed western stock.
